25. James Webster.

Mr. SANDERSON stated further, that all the above named Electors had accepted their appointment, and that he had in his possession written letters of acceptance, with a pledge that, if elected, they would support FILLMORE and DONELSON.

Mr. SANDERSON announced that a Committee from the North American were in waiting, and desired a Conference with this Committee.

On motion, the North American Committee, consisting of the Hon. JOHN COVODE, H. HARRISON SWARTZ, and JACOB GOSSLER, Esqs., were admitted, who submitted the following:

At a meeting of the American State Executive Committee, held on Thursday evening, the 16th instant, the following preamble and resolutions were unanimously adopted:

WHEREAS, The American State Executive Committee, favorable to the election of JOHN C. FREMONT to the Presidency, are anxious to secure the defeat of JAMES BUCHANAN; and whereas, in order to accomplish that object, it is necessary that all the elements of opposition to the Cincinnati Platform should be united; therefore,

Resolved, That we invite the American State Executive Committee, favorable to the election of MILLARD FILLMORE to the Presidency, (now in session at Harrisburg) to unite with us in the formation of an "ANTI-BUCHANAN" State Electoral Ticket.

A motion was then made and adopted, that a Committee of three be appointed to ascertain what propositions the North American Committee may have to make, and report the same to this body. Messrs. JOHN C. CLYDE, E. F. STEWART and DAVID E. STOUT were appointed said Committee.

A Committee from the Republican State Committee, consisting of Messrs. COWAN, GILBERT and PETERS were then introduced, who submitted the following:

To the President of the Fillmore State Committee:

A Committee of three from the Republican State Committee desire to confer with a similar Committee from your body, in relation to the feasibility of forming an Electoral Ticket to be supported by the opponents of the present Administration Party.

EDGAR COWAN, Chairman.

Oct. 16, 1856.

A motion was made to appoint a Committee to wait on the Republicans and ascertain what propositions they may have to make, and report to this body, which was adopted; and Messrs. FRANCIS JORDAN, H. B. SWOPE, and SMITH FULLER appointed said Committee.

After a short recess, the Committee from the North American entered with the following:

The North American Committee having been waited upon by a Sub-Committee from the Fillmore American Committee, with a request that the Fremont Committee would signify cooperation for the formation of an Anti-Buchanan ticket, the said Committee in accordance with that request, state that they are willing to agree to any of the following propositions:

1. That the Fillmore American Committee and the Republican Committee shall, collectively, (the Electors—the said Electors to pledge themselves to vote in such a manner as will secure the defeat of the nominee of the Cincinnati Convention.

2. That the Fillmore American Committee, and the Fremont American Committee shall each select thirteen persons; the persons so selected for Electors, to pledge themselves to cast the vote of the State in proportion to the vote polled for the twenty-seventh Elector.

3. That the three Committees meet in General Convention for the purpose of forming an Electoral ticket.

4. That the friends of FILLMORE, and the friends of FREMONT shall select, alternately, twenty-seven Electors; the said Electors to be pledged to cast the entire vote for the ticket of candidates receiving the highest number of electoral votes in order of defeat.

If none of the propositions are satisfactory, then the Fillmore Committee are requested to suggest a plan of cooperation, to secure the defeat of the nominee of the Cincinnati Convention."

Mr. PETER MARTIN offered the second proposition for our consideration, as follows:

3. That the Fillmore American Committee and the Fremont American Committee shall each select thirteen persons—the persons so selected for Electors to pledge themselves to cast the vote of the State in proportion to the vote polled for the twenty-seventh Elector.

Which was lost by the following vote:

YEAS—Messrs. Peter Martin, John J. Clyde, Francis Jordan and Wm. H. Koontz—4.

NAYS—Messrs. John F. Sanderson, R. C. Smith, A. G. Waterman, William Nicholls, Joseph Hutty, William F. Smith, David B. Stacy, David E. Stout, E. F. Stewart, C. E. Lefever, C. F. Wells, Edmund Blanchard, John Ashton, Robert Smith Fuller, H. B. G. Morgan, Samuel Morrow, Lafayette Hart, H. B. Swope—18.

Mr. R. C. SMITH offered the following resolution, which was adopted:

Resolved, That the propositions of the North American State Committee could not, in the opinion of this Committee, be favorably acted upon at the present time; that we are sincerely desirous to adopt any plan which may enable those opposed to Mr. BUCHANAN to unite in support of an Electoral Ticket which may be elected in the State; but that, however desirous so to unite, we are firmly convinced that there is not now practical mode of accomplishing so desirable an object, and that mode is cordially to unite in support of the American Electoral Ticket already placed in nomination; and that this Committee are willing and ready to cordially extend the hand of fellowship to their North American brethren in support of one common cause, and the same candidate.

On motion, the Committee adjourned until 10 o'clock on Friday morning, to meet at the Fillmore and Donelson Head-quarters, Fifth and Chesnut streets.

ISHAM HOSKINS, Oct. 17, 1856.

Committee met pursuant to adjournment.

Mr. FRANCIS JORDAN, Chairman of the Committee to wait upon the Republican Committee, made the following report, as similar from that Committee:

Resolved, That the Committee appointed to confer with the Fillmore and Donelson State Committee, be instructed to invite them to meet and unite with the Republican State Executive Committee for the purpose of framing an electoral ticket, opposed to the election of JAMES BUCHANAN, upon the basis proposed by the Union State Central Committee, or published for the call for a Union State Convention, to meet at Norristown on the 21st inst.

And, if the invitation be not accepted, then,

Resolved, That the said committee be instructed to invite the Fillmore and Donelson State Committee to meet with us for the purpose of forming an electoral ticket on some other basis, which will be likely to receive the support of the friends of FREMONT and FILLMORE.

Republican State Executive Committee.

ROOMS, NATIONAL,
Oct. 17, 1856.

Mr. SMITH FULLER then offered the following:

Resolved, That we deem it inexpedient, and not for the interest of the cause of FREMONT and FILLMORE in this State, and that we are firmly convinced that any such course with it would be the means of giving the State to BUCHANAN, instead of defeating him.

Which was unanimously adopted.

Mr. RANDOLPH C. SMITH offered the following resolution, which was adopted:

Resolved, That the Committee decline to accept either of the propositions of the Republican State Committee, and that the Chairman of this Committee be instructed to communicate the action of this Committee to the Republican State Committee, and inform them that this Committee have appointed a committee to confer with the Fillmore and Donelson State Committee, and that they are willing to meet them for the purpose of forming an Electoral Ticket opposed to the election of JAMES BUCHANAN, upon the basis proposed by the Union State Central Committee, or published for the call for a Union State Convention, to meet at Norristown on the 21st inst.

To the People of Pennsylvania.

The undersigned, members of the Republican, the Fillmore and Donelson, and the North American State Executive Committees have, agreed upon, and now present to the people of Pennsylvania, Union Electoral Tickets, formed on the basis recommended by the Union State Central Committee.

Twenty-six of the Electors nominated are common to each ticket. The name of JOHN C. FREMONT is placed at the head of the Fremont and Dayton ticket, as representing the twenty-seventh elector, and the name of MILLARD FILLMORE is placed at the head of the Fillmore and Donelson ticket, as representing the twenty-seventh elector of that party.

[The ticket agreed upon will be found elsewhere.]

The twenty-six electors are pledged to cast the votes of the State in the Electoral College for the respective candidates for the Presidency and Vice-Presidency in exact proportion to the popular vote given to each ticket. This forms a complete union of the opposition strength in Pennsylvania, while it enables every voter to indicate his preference of the Presidential candidates, without any compromise of his principles. Every vote given to the Fremont ticket counts in favor of the principles and candidates of the Republican and North American parties respectively, and every vote given to the Fillmore ticket counts in favor of the Fillmore and Donelson party, and will be fully represented in the final result.

The undersigned now call upon all who are opposed to Slavery extension over free territory—to the increase of slave representation in the Federal Government, and to the Cincinnati platform and its candidates, and upon all who desire to preserve the peace and the honor of the country, and faithfully to sustain the constitutional rights of every section of it, to cooperate with them in this contest for Union, Liberty and Justice! We solemnly invoke their active and earnest efforts to overthrow that sectional organization which seeks to force Slavery upon a free people at the point of the sword, and degrades American citizens by vitiating its safeguards at the ballot-box.

The undersigned have appointed a committee to prepare an address to the people, which will be published in a few days.

We are happy to announce that entire unanimity existed in the proceedings of the Committees, and no doubt is entertained that the result from common efforts to secure the adoption of the Union electoral tickets now presented, will be hailed with satisfaction by every citizen of Pennsylvania who is honestly hostile to the Cincinnati Platform and the election of JAMES BUCHANAN to the Presidency.

Ohio Results in Ohio.

From the Cincinnati Commercial, Oct. 16.

The gain on the vote that CHASE received in 1855 is very nearly 20,000. The Republicans were confident that there were more than both the other parties put together. Hence they made no effort to get out their full vote. The Democratic State ticket was elected by the combined vote of the Democratic and Know Nothing parties. There is no Fillmore Party in Ohio now—none of the members of it take organization that pretends to support the "National Union candidates" are prepared openly to declare against the Republicans and Democrats. The small package of Key boxes that were sent in Congress the 22d inst. of Long Sam, has been dried up for ever.

From the Cincinnati Gazette, Oct. 16.

THE FULLNESS VOTE IN THE COUNTY AND STATE.

Enough is now known of what is called the Fillmore movement in this State, to show that it has been completely abortive. In one sense, however, it has been efficient for evil. It has not done what it certainly might have done without any departure from principle, if principle was the object. It has not done what we believe a majority of its voters, as good citizens, would have desired—aided in electing county officers and members of Congress in opposition to the corrupt party which has so long ruled this city and county. This it has failed to do in the face of the most positive evidence that men could possibly have that the vote for FILLMORE and the American ticket in this county was utterly useless and hopeless. Nothing could be plainer than that the vote of that party was, as to State and county elections, entirely thrown away. If it was desirable to vote for FILLMORE at all events, why was it not desirable to give the county officers a Democratic majority in the same figures? The only excuse for this on the part of those who did not desire (and we know that in most of those who voted the American ticket) such a result, is that they were misinformed, and actually believed success for themselves possible. If any such feel themselves to have been grossly deceived, let them ask who has caused the deception? On whom have they relied? Who has proclaimed that their ticket could succeed in this county? Who claimed 10,000 votes in Ohio?

We have said in sincerity and kindness what has proved true, that those who wished to defeat the Democratic ticket would do what they did not intend to do—throw their votes away. They have done so, and now let them look to the vote of the county and the State as proof of what we know to be true, and did not hesitate to declare.

[BY TELEGRAPH.]

CINCINNATI, Saturday, Oct. 18.

The Democrats have elected to Congress MESSRS. PENDLETON, GROESBECK, COCKERILL, MILLER, COX, LAWRENCE and HALL certain, and it is believed that JOSEPH RANSEL, Democrat, in the Fifteenth Congressional district, is also elected in place of WM. E. SAGE, the present Republican member.

The Republicans have carried the State by about 30,000 plurality.

The Result in Indiana.

From the Indianapolis Journal, Oct. 17.

The news yesterday confirmed the chances of WILLARD's election. We do not doubt his success by a majority of five thousand or more. Offset returns may, and in some cases will, diminish the "round numbers" of reported majorities, but the substantial result will not be affected. We are not yet sufficiently advised as to the results in different sections to speak of the causes that produced it, but we know that in some of the counties in the North, Northeast, and along the Wabash, importations were heavy, and hardly attempted to be concealed. The result in Laporte, Fountain, Warren, Tippecanoe, Wabash, Allen and other Northern counties is attributable entirely to this cause. We know that defeated parties always charge fraud on the victors, and that the charge is often nothing but natural chagrin seeking some consolation, but we make our declaration with no hope of influencing any ulterior result and with a confident confidence that we are beaten on the State ticket. After patience under the disgusting dispensation long enough to accustom it to its bitterness. We have no inconsiderable amount of evidence, and as soon as the smoke of the fight has cleared away and the dead and wounded carry for, we shall have more to say about the matter.

There have been other causes cooperating with this, and even more influential, of which we shall take occasion to speak at length very soon. Suffice it to say, that after a careful consideration of all the circumstances of the contest, and of the result as known and indicated, we feel *sure that the Republican strength is sufficient to carry the State for Fremont.* The "Old Liners" will treat this declaration with derision, and we are willing they should. Our own friends may conclude that it is the usual complimentary flattering which all "editors" must manufacture as a matter of course. But with WILLARD's majority full in view, we assert and shall, in due time, give good reasons for it, that we can carry this State for FREMONT. The developments in the election are surprising in more ways than one. We are surprised, we confess, at our defeat; but we are more surprised at the means that have caused it, and of which we have received our first intimation in the result.

We need, friends, active thorough "work," and we need nothing else. We are now a compact, well knit party, every man fixed from principle, and will hang till his heart tells him he is wrong. Such men don't give up after defeat, or run to the strong side. We know our strength. We know where we have to fight hardest, and against whom. So, fellow-soldiers of free principles, to the fight again! The most memorable victories of the world have been gained by skillful and prompt action *right after defeat.* So WASHINGTON gained Trenton, WELLINGTON Waterloo, and FREMONT gained all his greatest victories. The majority against us will be far less than our opponents anticipated. They, though successful, are disappointed, and they will be more disappointed in November. They now claim the State as safe for BUCHANAN, but we know what we say, when we declare that *Buchanan cannot get Willard's vote by seven thousand.* They themselves know this, or have good reason to know it, and with all their State victory they are not confident of the Presidential result. Work, friends! Don't give up a single meeting, or change a single organization, or put back a cent into your pocket that you had devoted to the cause. We can succeed, and work, such as we have performed for six weeks past, will do it.

BY TELEGRAPH.

TIPPECANOE, Ind., Friday, Oct. 17.

A few scattering returns from the Northern Counties have been received, but they do not appear to lessen the chances of WILLARD's election as Governor. HAMMOND, Democrat, is also believed to be elected Lieut. Governor over BAKER, Republican. The Legislature, from present appearances, will be Democratic.

Political Excitement in Portsmouth, Va.—Military Called into Use.

There was a good deal of political excitement in Portsmouth, Va., on Monday last. It appears that a Fremont pole and flag had been erected in the town, which caused much excitement, and a meeting of the Common Council was called to take the matter into consideration. The meeting took place Monday night, in the Town Hall, where Mr. J. H. THOMPSON, a Councilman, offered a resolution authorizing the Town Sergeant to request the parties who erected the pole to take it down, and if the request was not complied with to take it down himself. Several citizens were present at the meeting, and one of them, Mr. J. G. HOLLIDAY, opposed the motion, and defended the right of the persons who raised the poll to do so. He was replied to by Mr. CROCKER. The motion was adopted. The Norfolk *Argus* of Wednesday, from which we gather the above facts, then says:

While Mr. THOMPSON was addressing the members of the Council, he was interrupted and insulted by GEORGE BUTT, a barkeeper, who was instrumental in raising the pole. This individual, on being called to order by the Mayor, became so riotous that his Honor called for the police. As they were not present, he ordered up a file of a volunteer company which was drilling near the hall. This being done, an attempt was made to put out the lights, but the rioters were stopped. They succeeded, however, in preventing BUTT from being arrested, by crowding round him, and rushing out of the hall. Before BUTT had escaped, however, some police officers arrived and seized him, but he tore himself away, leaving a large part of his coat with them. A friend of BUTT's snapped a pistol at a police officer, and retreated. The Mayor detained a portion of two volunteer companies to guard the city, but fortunately, there was no use for their services, the excitement dying away after a little noisy demonstration around the pole. The next morning BUTT was arrested.

The pole was taken down Tuesday according to direction, without any further disorderly demonstration.—*Norfolk Argus.*

HIGHWAY ROBBERY.—A little before 11 o'clock Saturday evening, a man was attacked in Front-street, between Beekman and Fulton streets, by three highwaymen, two of whom held him while the other rifled his pockets of $37 50, all the money in his possession. The victim cried lustily for help, and several citizens repaired speedily to the spot, but the robbers had fled with their booty, and managed to escape among the intricacies of the Fulton Market.

FATAL RUNAWAY ACCIDENT.—An accident occurred to WASHINGTON SPRAGG, of Pleasant Valley, Dutchess County, on Sunday last, which resulted fatally on Thursday. He was driving from that town to Poughkeepsie, when his horses ran away, overturning the wagon and breaking Mr. SPRAGG's back. He died in great agony.

EMBANKMENT ACCIDENT.—An accident happened at Decorse's brick yard, in Bergen, on Thursday last. A bank of earth fell upon three laboring men, injuring them so seriously that their lives are despaired of. They were all Germans.

Nominations for Police Magistrate.

The Republican Convention to nominate a Police Magistrate in the Third Judicial District, consisting of the Eighth and Ninth Wards, met Friday evening in the Bleecker Buildings, corner of Bleecker and Morton streets, and nominated ROBERT H. JOHNSTON. The vote on the first ballot was: JOHNSTON, 7; WARREN, 2; and SHANNON, 1. Mr. JOHNSTON has for several years past occupied the position of Clerk of the Central Police Court.

The Democratic Convention, for the same purpose, held an adjourned meeting on Friday night at No. 69 Wardam street, and nominated SAMUEL B. BROWNELL.

JAMES M. MURRAY is the nominee of the Dark-Lantern Party in the same District.

☞ The Democracy of the Second Ward, or rather that portion of it favorable to the election of DANIEL E. SICKLES, rallied together on Saturday evening, at MONTGOMERY's, in Beekman-street, where they were addressed by two Southern Colonels, one German, a Mr. BRADY and Mr. SICKLES.

☞ Alderman BERGEN, BELMONT's indefatigable friend, has received the indorsement of the Old Line Whigs for Alderman. Mayor Wood not got their nomination yet, but he may.

☞ The Republican City Convention met again on Saturday evening, for the purpose of selecting a nominee for Governor of the Almshouse, in place of Samuel Draper, Esq., declined. Dr. CHARLES HASKINS was nominated on the third ballot.

The ballots were as follows:

	1st ballot.	2d ballot.	3d ballot.
Dr. Charles Haskins	18	22	26
Robert T. Hays	29	withdrawn	—

Mr. Glasscock	—	—	1
Mr. Birdsall	—	—	1

Resolutions highly complimentary of Mr. DRAPER were unanimously adopted.

The Convention then adjourned sine die, with cheers for their nominee.

☞ We understand that Mr. GEORGE LAW was in the meeting in the Academy of Music, at which he spoke so eloquently last Friday evening, from a sick bed. He had just undergone an operation upon his throat, from the effects of which he has not yet recovered. Nothing but his zeal for the good cause tempted him out upon the occasion.

☞ The Republican Convention of the First Assembly District (comprising the First and Second Wards) met on Saturday evening and nominated Mr. EDWARD PEYSER for Member of Assembly, in place of Mr. A. E. CROCKER, declined.

The nomination was made by acclamation.

ADJOURNMENT OF THE EPISCOPAL CONVENTION—THE AFFAIR OF THE SHIFFLER HOSE CO.

PHILADELPHIA, Sunday, Oct. 19.

The Episcopal Convention have resolved to adjourn, finally, on Tuesday evening next.

At the Coroner's Inquest in regard to the McIntyre murder, two witnesses recognized JOHN ENGLISH, of Baltimore, as the man who fired the pistol, though one swore that he wore a cap, and the other that he had on a Kossuth hat. By the testimony of the witnesses, it was proven that the Shiffler Hose Company was attacked, and that a running fight ensued for a distance of two squares. One witness testified that the deceased was beating a man over the head when he was shot; and this is corroborated by deceased having a billet in his hand when found. The jury will meet to form a verdict this evening.

The Presidential Election.

Some of our readers may need to be reminded that the *Presidential* election is not yet over. Judging from the tone of the Sunday newspapers, one would suppose that Pennsylvania and Indiana had elected JAMES BUCHANAN President of the United States. This is a mistake. That election comes off two weeks from to-morrow. Those that have already occurred were preliminary skirmishes,—upon local issues, by detached portions of the great popular army. They turned only incidentally and partially upon the National issue that divides the country. The result, undoubtedly, disappoints those Republicans who expected to walk over the course without opposition. It will discourage some who worked only under the stimulus of certain success. And if it has the effect of inducing them to give up the contest *in advance*, then of course the battle is lost;—but it will be lost by their fault.

Our own opinion is that the great fight is still to come;—that the recent elections will in some respects influence the contest favorably for FREMONT;—and that if it be waged with spirit, courage, energy and close attention to details, the field may yet be won.

In the first place, FREMONT can afford to lose Indiana, New-Jersey and California, if he carries Pennsylvania. What his chances are of carrying either of these three States it is not easy now to say. The returns of the Indiana election when received will afford ground for a judgment concerning that State. The defeat of the Republican State ticket is by no means decisive as to the Presidential contest. The loss of Congressmen is a much more serious defection;—but we can draw no safe conclusions from this fact, in advance of the returns of the popular vote.

In Pennsylvania one thing is obvious:—a defeat of the Buchanan ticket by a large majority would have led at once to a *coalition* between the Buchanan and Fillmore parties, both in Pennsylvania and New-York. This had become perfectly apparent, from the disclosures of the organs of both, previous to the election. The result has so strengthened the confidence of the Buchanan men as to render this impossible. That danger is averted. Each party will stand upon its own bottom. Mr. BUCHANAN will undoubtedly receive a very large portion of the Fillmore vote:—but so did the Buchanan ticket at the late election. We know the worst that can happen from that quarter. All through the Eastern, and in parts of the Northern, counties of the State, the ultra Fillmore men voted for the Democratic State ticket. We shall lose nothing more from this quarter. The Fillmore Party now has a separate electoral ticket of its own. Although sustained by only *a portion* of the Fillmore State Committee, it still presents a rallying point around which they must gather, or else sink into utter insignificance.

It will be seen by the report in another column, that a *Union Electoral ticket* has been agreed upon by the Republicans, the North Americans, and a *portion* of the Fillmore men, as represented by their respective State Central Committees. This ticket will offer to all the *Free-Soil* opponents of the Pro-Slavery Democracy, in the Fillmore ranks, an opportunity of voting against BUCHANAN, without sacrificing their principles. It will retain, therefore, for FREMONT very nearly, if not all, the American votes that were cast for the Union State ticket.

In the late election, moreover, we hear from very good authority that the Quakers took no part. They did not go to the polls at all. There cannot be less than 20,000 of them, who will vote for FREMONT in November. There are at least as many Germans, whom it was unreasonable to expect to vote the *American* ticket, which was the only one then in nomination, but *three-fourths of whom* will vote against the Extension of Slavery and in favor of FREMONT.

In face of these facts we can see no reason whatever for giving up the contest in Pennsylvania. On the contrary, we see abundant grounds for believing that with proper exertions,—with prompt and effective organization,—with a vigorous and energetic personal canvass of the whole State,—its vote for FREMONT may be secured by 15,000 majority. The fact is, Pennsylvania has never voted alike at her State elections and in the Presidential contests immediately succeeding. In 1840 she elected the Democratic State ticket at the October election by a majority of several thousand:—yet in November following, she gave HARRISON her electoral vote. In 1848, she elected a Whig Governor by less than a thousand:—in November she gave TAYLOR over 12,000 majority. Nothing can be more idle, therefore, than to resign Pennsylvania because the Buchanan State ticket has now succeeded by a small majority.

The Presidential contest is still to be fought. The doubts thrown upon the result by the late elections, instead of inducing despair, should only stimulate to more earnest and more strenuous effort. With vigor and energy, all may yet be safe. The vast interests at stake should incite every man to leave nothing within his power undone, to secure the triumph of the Right.

Remunerative Labor.

The RICHMOND *Enquirer* indulges in some remarks in reply to an article in the DAILY TIMES, and wishes "every paper at the North to copy them." We cheerfully do our part, by inserting them in another column of this paper.

We have no disposition, however, to let this nonsense go without its commentary. The *Enquirer* is anxious to foreshow the ruin disunion must inflict upon the prosperity of the North, arguing to that result from several gratuitous assumptions irreconcilable with sense, experience, and the inevitable laws of political economy. The chief of these assumptions is, that by any *legislation*, the law-makers of the proposed Southern Republic can more than temporarily divert the natural movement of the cotton crop from the Northern factory. It is an axiom more profoundly based than any other in economical science, that the normal course of trade may be momentarily interrupted, but can no more be finally stopped than the current of a river. No discrimination that the South may venture upon to the disadvantage of the Northern cotton-spinner will outlast the Legislature that makes it. The interest of the community and of its individual members cannot be sacrificed to the gratification of a silly spite and jealousy; and that it is the interest of the South to transact its exchanges with the nearest market, it is needless to demonstrate. The proximity of a Northern market, and the accessibility of Northern capital, are now the main supports of what prosperity the South enjoys.

But admitting the possibility of withholding the cotton crop from our manufacturers, and the consequent closing of the Northern factories, we realize none of the difficulties the *Enquirer* foretells in feeding, clothing, and employing our population. According to the census of 1850 fewer people are employed directly in cotton manufactures than in editing newspapers or weaving homespun cloth. The shutting up of the cotton mills would only operate immediately in driving this inconsiderable population from the loom to the soil, a change manifestly desirable in every point of view. Indirectly, the power of the Cotton interest is ludicrously exaggerated. The census of 1850 shows that the total value of manufactures, exclusive of home-made articles, in the North, was $845,430,428. Of these, but $52,000,000 were of cotton; that is, only one-sixteenth of the whole. Saying nothing of the iron, the copper, the coal, nothing of agricultural products peculiar to a Northern climate, there are three items of production in the Eastern and Middle States, wholly independent of the South, which jointly equal the cotton income in value. They are fish, salt and wool, the aggregate annual worth of which reaches $60,000,000. These alone afford us the means of exchange against the productions of the farm; but we are not dependent upon these. Always assuming the whole business of cotton manufacturing to be transferred to England, we should at once look to England for our supply of manufactured goods. Here would be employment for the capital, the shipping—and the population, if need be—set adrift by the Southern commercial policy; and here would be precisely the same element of exchange against farm products that already exists. Nor would we need longer the thirty per cent. tariff on cotton manufactures now levied. The imposition of any excise upon cotton carried to the North, the North would meet by removing the duty on manufactured cotton; and we should certainly anticipate cheaper sheeting, shirting and fine goods in the event of disunion than we can ever expect otherwise. Let it always be remembered, that tariff and Custom-house are the creatures of Southern selfishness. Wise men long ago found out that no more unjust or unequal mode of raising revenue could be devised than by duties on importations, whereby the laborer at twelve shillings a day often pays a larger tax to the Federal Government than the merchant prince, whose navies whiten the seas, or the owner of cities, to which the Union affords indispensable protection and stability of values. But the slaveholding interest likewise made the same discovery. The laboring population of the South, numbering nearly four millions, and amounting to more than one-third of the whole population, uses nothing that passes through the Custom-House, and, for all practical purposes, nothing the price of which is augmented by tariff. They pay no tribute, therefore, under the present system, to the Federal Government, while represented in and controlling its conduct; whereas, if Custom-Houses were swept away, and direct taxation, as contemplated by the Constitution, substituted, the labor of the South would bear the same imposts as the labor of the North, and the South for the first time sustain its proportion of the cost of Government. Freed from Southern antagonism to a change of policy, the North would unquestionably secure that change promptly, and throw open its ports to the products of the world. Cotton goods in those days will be afforded at prices still lower and more available for purchasing the breadstuffs of the Northwest. As to the amusing assumption that the latter would identify itself with a Southern Union, in case of dissolution, it is too absurd for discussion. The channel of the Mississippi is no longer the channel of Western traffic—New-Orleans no longer its depôt. The iron roads stretched out to the great West from the Northern Atlantic ports have brought hither all those elements of wealth, for the lack of which New-Orleans, instead of advancing to greatness *pari passu* with the development of the valley north of it, has culminated, and is rapidly declining. The attraction of Southern institutions is not so irresistible, we fancy, as to induce the Northwest to abandon all the advantages it recognizes in its relations with the Eastern States, and recur to avenues of trade it has pronounced unprofitable, and is rapidly deserting. The first law of economics, one overriding all the vindictive and blundering legislation of madcaps and wiseacres, is that trade will be directed by interest. If it were *the interest of the South to legislate* to the disadvantage of the North, it need not wait for disunion. Its influence in Congress is unhappily sufficient to inflict endless detriment upon Northern interests, politically and commercially. If it were the interest of the Northwest to seek New-Orleans for a market rather than New-York, it would certainly not postpone the seeking until BROOKS, WISE, STEPHENS, and QUITMAN, should set up their Utopian empire.

The essential error of these crazy economists of the South is, that they forget how utterly dependent the State of each section is, capital. The power of the cotton-crop all resides in that. We talk of conquering England, in case of severed relations, by withholding cotton from her mills. It could not be withheld a month without Northern capital to feed planter and slave. Even with all the facilities of Northern consumption of cotton, and Northern ships to carry it for him to every market of the world, and Northern capital to draw upon—he is too poor to wait for a return from Liverpool or Havre—it is a notorious fact that the planter is always in debt, and has nearly always consumed the profit of his crop before it is gathered. Let the separation recommended by the *Enquirer* be effected, and let the embargo it proposes to lay upon Northern capital be imposed, and, without money, shipping, credit or manufactures, can we conceive ruin more wretched and pitiable than must at once settle like a black cloud upon every interest of the South? Cotton, we reiterate, without capital, is powerless. And fortunately the capital of the North is not derived, as we have shown, from converting cotton into cloth—but from a thousand and infinitely diversified sources, with which cotton has nothing to do. It is, in fact, well known to all practical men, familiar with the manufacturing interest, that no portion of Northern capital is so unprofitably and lovingly invested, as that locked up in cotton mills and costly machinery. We depend upon the factory neither for food nor the means of procuring it. Nor can we be made, as the *Enquirer* suggests, wholly dependent upon our fisheries. Out of the $845,430,428 of the products of manual dexterity at the North, the fisheries yield but $9,636,278—and the omission of both them and the cotton factory from the result could hardly affect it sensibly—especially as the capital released from the latter would instantly seek more profitable service.

The *Enquirer* will, therefore, do well to learn enough of political economy to know that so long as the laws of human nature, which is but another name for the laws of trade, remain what they are, political cannot be made to carry with it commercial separation. There is no magic lamp for Aladdin WISE to rub, or divining-rod for philosopher BROOKS to conjure withal, that can call suddenly into being that substitute for the money, the shipping, the shops, and the markets of the North, without which the South is in a condition of impotent pauperism. There is no KEITT or QUITMAN powerful enough in the arms to shut the Southern markets against necessary articles of Northern manufacture, without which the South is a pauper, neither housed, fed nor comforted. Tariffs are of no avail. Tax the products of our shops as you will, you only tax your own consumers, and increase the difficulty without diminishing the necessity of buying. Northern industry is indeed beyond the reach of disunionism.

The Direct Vote in November.

The Black Democracy are in paroxysms of exultation. Their frantic cries show how great had been their recent alarm. Compare the feeling now with that of February last among their ranks, and the amazing growth of the Republican Party will be measured. Pennsylvania and Indiana, that voted so heavily for General PIERCE, are saved by meagre majorities. Let those Republicans who feel desponding remember that in both of these States tens of thousands among Democrats support Colonel FREMONT because he is a true Democrat of the Jefferson and Jackson school, but vote with their old associates upon matters of canal and financial and domestic policy within their own States. Let them recall among their own friends the many, who, disliking the turmoil and excitement of a local election, will, at all hazards, vote for Freedom when the true issue comes up. Why, in one year the Free-Soil child has become a giant! A Wise Providence, in momentarily stopping the tide of resistance to Slavery extension, is but giving time for the flood to strengthen. The check of local defeat will banish that ruinous confidence which infected the Republican ranks. Let the men who fight for FREMONT and Free Soil pluck from the nettle danger, the flower safety. A fortnight devoted to organization in every town—to canvassing every vote—to acquainting every elector with the true issue—to substituting desperate valor for confident enthusiasm—to caring for one's own immediate precinct—and the second great contest for freedom in our National history will be won. To dread defeat, and to realize the fell influence of disaster, are often more favorable to the development of the soldier than to confidently expect victory. It was this dread and realization which nerved their opponents in Southern Indiana and Eastern Pennsylvania. Every vote for Slavery in these States has been brought out; but there are forces of Freedom yet in reserve, and there is time yet for a strong pull all together!

A Moral Spasm.

The Police on Friday night made one of those semi-occasional strikes for purity and popularity, which have characterized this department of our City Government for a year or two past. After permitting the exhibition of model artists to go on without molestation, or rebuke, for month after month,—being freely advertised in the papers, placarded in the streets, and blazoned by illuminated pictures,—they mustered in full force under the orders of the Mayor, and captured six females,—grouped in a *tableau vivant* of "Venus rising from the Sea." In the reports of this engagement we are told that *seven* police officers were concerned in it:—all stalwart men, armed with clubs, and evidently prepared to "do or die." They rushed upon the stage,—met no opposition,—permitted all the *male* participants in the show to walk off unmolested, seized the half dozen girls, and paraded them, in their semi-nude condition, through Broadway,—thus making the exhibition general and public, instead of select and private.

These girls were all young,—the oldest 18;—they all declared upon examination that they had led virtuous lives, and that they exhibited *themselves as living models* because they were poor and could obtain a living in no other way. One of them had been a tailoress:—one a paper-box maker:—all had been engaged in this business but a few months. One had "a father and mother, a child three months old, and a husband in Nicaragua. *She supports all except the husband*,—her father having been long sick in the hospital." And so of the rest.

These are the victims of police justice. Poor young girls,—with fathers, mothers, and ... must after Col. FREMONT's election? What consistent and sensible patriots these Virginians are!

A SILENT MISTAKE.—The *Sunday Mercury* states that "the Tribune and the DAILY TIMES have assailed him (Mayor WOOD) most virulently, because of his appointing Mr. A. V. STOUT, President of the Shoe and Leather Bank, to the office of City Chamberlain." So far as this paper is concerned its readers know that the *Mercury* is entirely mistaken. We have uniformly commended this appointment as in every respect just, judicious and creditable to the appointing power. We did so the morning after it was made, and we have done so ever since. Our only complaint against Mayor WOOD has been that *all* his appointments to office were not of the same character, and *made on the same* principle of regard for the interests of the City, as that of Mr. STOUT. It is the rabid partisans of his own party that denounce this appointment,—because it was not made on party grounds. And it was by the few acts of this kind which he has done, that the Mayor has lost the support of the most ultra and reckless of his own political school.

The Great French Railway Fraud—Arrest of Carpenter—Recovery of some of the Embezzled Funds.

The recent arrest in this City of certain parties charged with defrauding the Northern Railway of France out of a large amount of funds, and the action had in relation thereto, will be remembered. CHARLES CARPENTIER, the cashier of the Railway Company, and the principal of the offending fugitives, who had contrived to elude arrest, was captured, on Thursday night, by some United States officers, in Orange County, at which place he had engaged himself as a farm laborer. He was in bed when arrested. He effected great surprise, but finding his feint of no avail he finally acknowledged his name to be CARPENTIER. He was then taken in his rough attire to this City and lodged in the Eldridge-street jail with his accomplices previously arrested.

CARPENTIER's arrest was brought about, it is said, by a shrewd countryman, who recognized him from the published descriptions, notwithstanding he (CARPENTIER) had shaven off his moustache and otherwise disguised himself.

Not any property of value was found in possession of the prisoner. He said he arrived in this country very poor, and had scarcely money enough to pay the expenses of a journey to Europe.

On Friday, M. TISSANDIER, who was sent from France to identify the fugitives, appeared before Justice OSBORNE, at the Lower Police Court, and made the following affidavit:

Emanuel Tissandier, of Paris, in France, now being in the City of New-York, being duly sworn, deposes and says: That 5,747 shares or titles of the capital stock of the Northern Railway Company of France, with the coupons attached thereto, have been stolen or embezzled from said company; that the same are of great value, and that deponent suspects that such property or portion thereof is concealed in the house and premises No. 197 West Sixteenth-street, in the City of New-York; he therefore complains of the above, and prays for a warrant for search for all the property so concealed, as provided in such cases by law. E. TISSANDIER.

Sworn before me, this 17th day of October, 1856.
B. W. OSBORNE, Police Justice.

Upon this affidavit a search warrant was issued, and placed, for execution, in the hands of Sergeant BROWN, of the Chief's Office, and Deputy United States Marshal RYAN. These officers, guided by the information imparted in the annexed anonymous note, (sent to one of the parties concerned,) discovered a box containing an amount of property stolen from the railway company:

"In the second story of tenement house No. 197 West Sixteenth-street, *front* room, lives FRANÇOIS COUVER, house carpenter. In the sub-cellar of said house, where fuel is kept, and which is divided into wood-rooms, to accommodate four or five families who live there—in the wood-house appertioned to said COUVER there has recently been received two tons of coal. The coal must be removed. Under the coal is three inches of sawdust or earth. Between the coal and paving of the cellar, under the flagging of brick or stone, whatever the cellar is paved with, is a small wooden box, of about a foot square, inclosing a tin box, which is soldered, containing the valuables."

The box found in the place described in the note, contained a considerable amount of the embezzled property, but its exact value we are unable to state.

So here concludes another chapter in this really romantic case.

All the parties connected with the great frauds on the French Railroad, who fled to this country, are now in custody. What their final disposition will be remains to be seen.

They have certainly given great trouble to the Police. One of the detectives attached to the Chief's Office has just returned from New-Orleans, whither he went in search of CARPENTIER.

Love—Desertion—Suicide.

JOHN BECK, a German, aged 68 years, committed suicide on Friday evening by blowing out his brains with a horse pistol. He did the deed at his residence, No. 119 Eighth-street. Coroner HILLS held an inquest upon the body on Saturday. The daughter of the deceased, a girl 19 years of age, testified that nine years ago her father deserted her mother in Germany, and ran away to this country with a young widow named MARY ANN ENGLETHORNE, and arriving here married her. The fugitives took up their residence at No. 119 Eighth-street, BECK having purchased the dwelling, and there lived together until about nine weeks ago, when MARY ANN eloped with a young man named LORENZO MINIE. The deeds of the house had been made out in her name, she availed herself of the fact to sell the property, taking with her the proceeds. This conduct greatly depressed the old man. He grieved principally at the loss of his property, and frequently threatened to take his life. This threat he carried out, as already stated, on Friday evening. Verdict: "Suicide by shooting."

☞ POLITICAL DEBATE.—Hon. LUCIEN B. CHASE (Buchanan) and Lieut. Gov. RAYMOND (Fremont) meet this evening at the Tabernacle, at 7½ o'clock, for the discussion of the political issues before the country. Gentlemen and ladies of all parties are invited to attend.

To customers wanting a good cigar:
The man who puts his faith wrong,
A cigar that's rotten,
Unpaid, for his trouble
Let open his pocket;
But page more noble here are found,
Where verdant fields are full,
Bring whether, rotten clothes abound,
And Poor Pouch is full.

Oh ye who seek Manhattan shores,
No more let sharpers blind,
But like to sharper, mercantile shores,
And purchase what you need.
For boots, clothes, coats and pants,
Sirrus' cannot were never matched,
And on a ticket clear is stated,
The price of each is stated.

DR. TURNBULL,
OCULIST AND AURIST,
(FROM LONDON),
Is at the Everett House, Union-square, where he may be consulted.
☞ Office hours from 9 A. M. to 2 P. M.
From the London Times.
A number of persons have recently assembled at the residence of Dr. Turnbull, to witness the manner in which the new discovery, invented by that gentleman, and applied by him to the cure of Deafness, is performed.
Between twenty and thirty patients, had been invited, whom it was stated by their parents, had been totally deaf and dumb. They were submitted to the operation by which it was proved that their deafness had been caused by the annihilation of Dr. Turnbull's theory, and that the apparent mutism of the children was in reality the absence of an auditory sense. Whether the disease was paralysis, or the destruction of the internal organs of hearing, obstruction, or incomplete development of the auditory nerve, it was equally removed. Several persons, who had been born deaf, were completely healed, and their hearing was restored to perfection.
We agree with the Rector, Churchwarden and Dr. Turnbull has, by patience and ingenuity, obtained a great command over mechanical and medicinal agencies, calculated to cure cases of deafness, such as were never cured before.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken. Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effects of it in every case. So sure as water will extinguish fire, so sure will this cure a humor. I never sold a bottle of it but that said another; after a trial, it always speaks for itself. There are two things about this herb that appear to me surprising—first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846; second, that it should cure all kinds of humor.
In order to give some idea of the widest rise and great benefit of this discovery, I will state that in April, 1845, I peddled it, and sold about six bottles per day. In April, 1854, I sold over a thousand bottles per day.
No change of diet ever necessary—eat the best you can get, and enough of it.
DIRECTIONS FOR USE.—Adults, one table spoonful per day; children over 8 years, dessert spoonful; children from 5 to 8 years, tea-spoonful. As no direction can be given to suit constitutions, take sufficient to operate on the bowels twice a day.

JUST PUBLISHED:
A new edition of that practical medical work,
HUMAN FRAILTY, OR PHYSIOLOGICAL RESEARCHES.
It is beautifully illustrated, and describes the causes and effect of all diseases of a delicate nature; it contains copious instructions for the perfect restoration of those who are prevented, by any unsoundness, from entering into the marriage state, with observations on the direful results of early abuse; also a professional dissertation, illustrating the results of chemical tests, and examination of the Spermatozoa, by the Patentee's newly-constructed Urinometer, with powerful lenses, also instructions for the proper treatment and cure of every stage and form of those disorders which, unfortunately, the English Physician treats with mercury, to the inevitable destruction of the patient's constitution. Price 25 cents. Sent postpaid to any address.
This invaluable work may be obtained, as well as the Trisemer, from Dr. BARROW, No. 157 Prince-st., (few doors west of Broadway,) New-York. To be consulted, as usual, from 11 A. M. till 2 P. M., and from 4 till 6 in the evening.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE.—TRIESEMAR.—Notice no genuine unless the engravings of the Seals of the Patent Office of Great Britain, the Seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and around each case.
Sold by Dr. H. A. BARROW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 157 Prince-st., (few blocks west of Broadway,) New-York, from 11 A. M. till 2 P. M., and from 4 till 6 in the evening, (Sundays excepted.)
TRIESEMAR No. 1.—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c.; all physical impediments vanish like magic before its influence, thus rendering its use invaluable to those entering the married state.
TRIESEMAR No. 2.—Entirely eradicates all traces of those disorders which copaiva and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.
TRIESEMAR No. 3.—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.
TRIESEMAR Nos. 1, 2, and 3, are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. Sold in six cases and divided in separate boxes as administered by Valpeau, Lallemand, Roux, Ricord, &c., &c. To be had wholesale and retail of Dr. BARROW, No. 157 Prince-st., a few blocks west of Broadway, New-York.
Special arrangements having been made with the various Expresses, the nine-dollar cases of the Trisemar, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three-dollar cases sent to Canada, but not free of carriage.
Consultation and attendance from 11 A. M. till 2 P. M., and from 4 till 6.

$500 REWARD.—JEFFRIE'S ANTIDOTE, A specific mixture for the cure of gonorrhœa, gleet, strictures and similar disorders. It makes a speedy cure without the least restriction of diet, drink, exposure, or change in application to business. Our object is to notify where it can be had; and the proprietor challenges a single case of recent gonorrhœa which the mixture will not cure, under a forfeiture of $500. Repeated experiments and long experience have proved that it will radically cure any case which can be produced. This desirable result is obtained in from two to ten days, and as it neither creates nausea nor offends the palate, and renders unnecessary any deviation in diet or interruption to usual pursuits, sound sleep or healthy digestion, the nuisance is thus removed as speedily as is consistent with the production of a thorough and permanent cure. Its ingredients are entirely vegetable, and no injurious effect, either constitutionally or locally, can be caused by its use. Price $1 per bottle. Sole agent for this City, C. H. RING, No. 192 Broadway, corner of John-st.

PRIVATE CONSULTATIONS.—DR. WATSON has, for a long series of years, confined his attention to diseases of a certain class, in which he has treated not less than twenty thousand cases, without an instance of failure. The remedies are mild, and do not keep the patient from business, or expose him to detection. An immediate application should always be made; but if the disease has lain concealed in the system, or has spread by injudicious treatment, the undersigned knows his self-especially competent to treat such cases, by a method at once safe, speedy and efficacious. Dr. WATSON is in constant attendance from 9 in the morning until 9 at night, at his consulting rooms and residence, No. 58 Walker-st., a few doors west of Broadway.

SANDS' SARSAPARILLA.
This purely vegetable remedy combines in itself the properties of an antiseptic, a mild cathartic, and a tonic. It gently restores from the blood, and other fluids of the body, the impurities of unhealthy secretions which engender and feed disease, thus striking at the root of the malady. It contains no powerful drastic drug to debilitate the system, or mineral poison to ruin the constitution.
Prepared and sold by A. B. & D. SANDS, No. 100 Fulton-st., New-York. Price $1 per bottle, or six bottles for $5.

SURE CURE.—THE GREAT REMEDY, DR. SWAYNE'S UNFORTUNATE'S FRIEND. Wonderful as it may seem, it is a fact that this remedy never fails to cure the most desperate case of private disease, the infallible friend of the afflicted. Other remedies are worse than useless. It alone cures that is never returned; removes the disease without leaving its poison in the blood to contaminate the system and break out continually. $1. Sold at the old-established office, Canal-st., corner of Broadway.
The following are the diseases in which DR. WARD may be consulted, and in which he guarantees a cure after every other physician has failed: Gonorrhœa, Gleet, Stricture, Syphilis, or the real Venereal; all the forms of Secondary Symptoms, Spermatorrhœa, and a certain description of Nervous Debility. Patients communicating from a distance may be certain of receiving advice and medicine duly by express, pattern of bottle, post-paid, and contain five dollars, in order to receive due attention. Prompt advice, and the requisite medicines, as well as a cure guaranteed, to those transmitting that amount. Office, Canal-st., one door east of Broadway.

$1,000 FORFEITED AND NO CHARGE UNLESS CURED.—Dr. HUNTER cures when the treatment of other physicians and all other remedies fail. His Red Drop is the only reliance for a thorough cure in certain diseases. No. 3 Division-st., the only place near or west Broadway for the very worst cases. What it has performed, without diet or hindrance from business, when all other remedies only drive the disease in the blood, 61 only. This secures the patient from secondary attacks, and is the only remedy on earth that does it. Try all others and see. Observe the number as spurious Dr. Hunters are starting up on every block and the remedy is counterfeited all over the country.

$500 REWARD.—CROSSMAN'S SPECIFIC MIXTURE FOR THE CURE OF GONORRHŒA.—Of all the remedies yet discovered for this complaint, this is the most certain; it makes a speedy and permanent cure, without the least restriction to diet or drink, exposure or change in application to business.
